BRILLIANT MINDS

SMARTKIDS GHANA **JUNE FINANCIAL REPORT (GHANA EXPENSES)**

During the month of June, SmartKids Ghana did not record any Ghana operational expenses in this report. While our team traveled to Wadie Adwumakase to facilitate our Zoom Teaching Program and support students during the virtual lessons, all costs associated with transportation, logistics, and program implementation were fully covered by funds raised specifically through the Zoom Teaching Program fundraising initiative.

As a result, no additional Ghana operational funds were required or expended during the month. This dedicated funding model ensures that the costs of delivering the Zoom Teaching Program are supported directly by the program's fundraising efforts, allowing other organizational resources to be preserved for future educational initiatives.

Throughout June, our focus remained on delivering engaging virtual learning experiences, coordinating volunteers, and supporting students in Wadie Adwumakase. We remain committed to financial transparency and responsible stewardship by ensuring that restricted program funds are used for their intended purpose.

For a complete overview of SmartKids Ghana's financial activity, including income, donations, and overall financial performance for June, please refer to the June Financial Report.
