October Performance Review

SMARTKIDS GHANA OFFICIALLY LAUNCHES ITS OFFICE & LEARNING CENTER IN PARKOSO, KUMASI

On October 12, 2026, SmartKids Ghana proudly launched its Office & Learning Center in Parkoso, Kumasi, Ghana. A significant milestone in our mission to make quality education, digital skills, and meaningful learning opportunities accessible to more children.

More than just an office, the center represents a growing vision for sustainable impact. It will serve as a hub for our administrative operations, educational activities, and community engagement, while also functioning as the business arm of SmartKids Ghana. Through this initiative, we aim to generate additional income to support our programs, reduce selected operational expenses, and strengthen our ability to sustain and expand our impact without relying solely on donations.

October Performance Review

At the heart of this initiative is our commitment to cultivating brilliant young minds, equipping children with essential digital and educational skills, and helping bridge the digital and educational divide in Ghana. By combining education with a sustainable business model, we are building a future where more children can access the resources, knowledge, and opportunities they need to thrive.

The launch marks an exciting new chapter that brings us closer to our vision of empowering the next generation through education, innovation, and sustainable development. We are grateful to everyone whose contributions, encouragement, and dedication have helped make this milestone possible.

This is more than a new space. It is a commitment to education, and another step toward a future where every child has the opportunity to learn, grow, and succeed.

DZOGBORVE TEACHING PROGRAM COMES TO AN END: SIX WEEKS OF LEARNING, PARTNERSHIP, AND IMPACT

SmartKids Ghana successfully concluded its six-week Zoom Teaching Program in Dzogborve, Volta Region, marking a meaningful milestone in our mission to bridge the digital and educational divide in Ghana. The program reached 30 scholars through 13 hours of teaching, six weeks of virtual instruction, and five visits to the community, creating valuable opportunities for learning, discovery, and skills development.

30	13	6	5
SCHOLARS	HOURS OF TEACHING	WEEKS OF VIRTUAL INSTRUCTION	VISITS TO THE COMMUNITY

Throughout the program, scholars participated in lessons designed to strengthen their digital, educational, and practical knowledge. From creating Gmail accounts to engaging in health literacy lessons, including Treating Wounds, the students gained exposure to essential skills that can support their learning both inside and outside the classroom. Beyond the lessons themselves, the program demonstrated the importance of making education accessible to children in communities where access to digital resources and reliable infrastructure can be challenging.

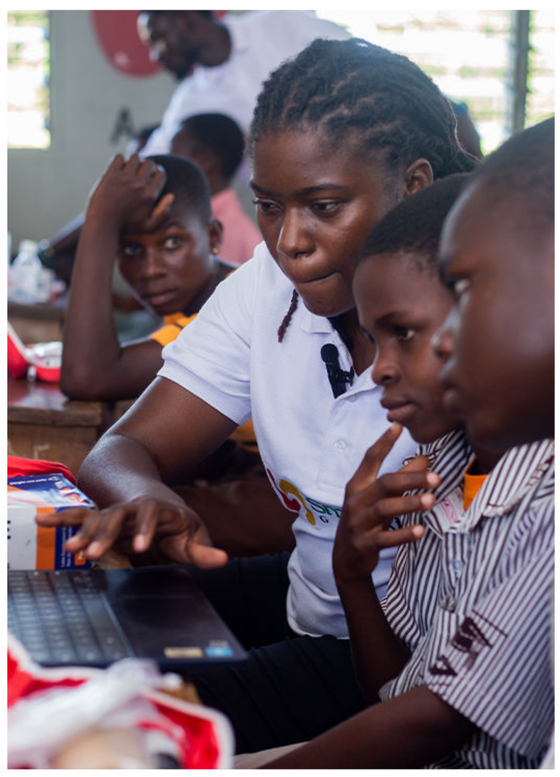

This achievement was made possible through the dedication of a committed team. The program brought together SmartKids Ghana's Executive Director, one field coordinator, one volunteer, one media crew member, six Zoom teachers, four Dzogborve teachers, and a volunteer driver who faithfully transported the team from Accra to the Volta Region and back during each visit. Their combined efforts ensured that the program continued to move forward, with each person playing an important role in delivering the learning experience to the scholars.

October Performance Review

We also extend our sincere appreciation to Togbe Yelu Keteni VI, the visionary traditional leader who gifted the land that helped make this initiative possible, and to our partner school in Dzogborve. Their support reflects the power of community leadership and collaboration in advancing education. When electricity was unavailable, the partner school stepped in to help ensure that learning could continue. This commitment was a powerful reminder that meaningful educational impact is built not only on technology, but also on people who are willing to find solutions when challenges arise.

The Dzogborve program represents more than six weeks of teaching. It reflects what is possible when committed educators, volunteers, community leaders, and local partners work together toward a shared vision. We are proud of the 30 scholars who participated and grateful to everyone who helped make this journey successful.

As we bring this chapter to a close, SmartKids Ghana remains committed to expanding access to quality education and digital learning opportunities in underserved communities. Dzogborve has strengthened our belief that a child's location or access to resources should never determine the limits of their potential.

Thirty scholars. Six weeks of learning. Thirteen hours of teaching. Five community visits. One shared vision: empowering young minds through education.

The journey in Dzogborve may have come to an end, but the knowledge gained, relationships built, and possibilities created will continue to inspire our work.

October Performance Review

MENTORARC X SMARTKIDS GHANA: PSYCHOLOGY OF THE BRAIN

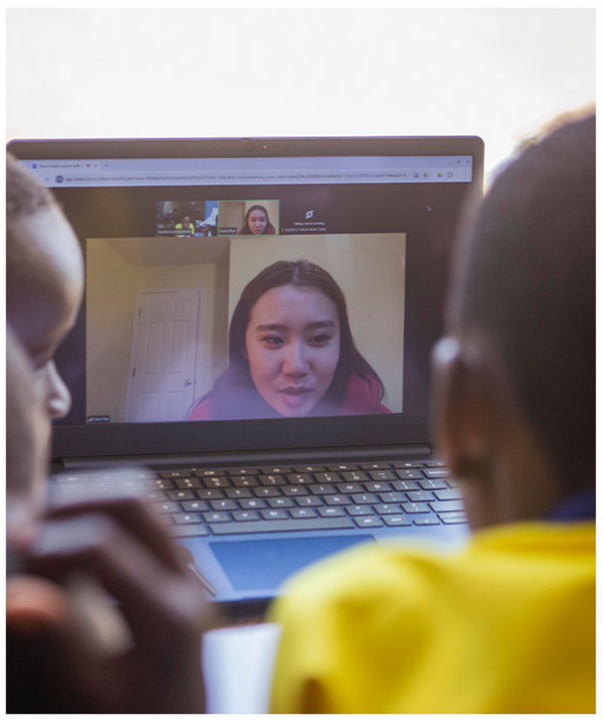

SmartKids Ghana, in collaboration with MentorArc, successfully delivered the Psychology of the Brain curriculum to 30 students at Wadie Adwumakase Primary School. This initiative was made possible through the dedication of our teachers, Daisy Ryu and Nour Eissa, MentorArc volunteers who created this curriculum, shared their knowledge and time to introduce students to the fascinating world of the human brain and psychology.

The program provided scholars with an opportunity to explore how the brain works, develop a better understanding of human behavior, and appreciate the connection between thoughts, emotions, and learning. By introducing these concepts at an early age, the initiative encouraged curiosity, critical thinking, and a deeper interest in understanding themselves and others.

This collaboration reflects SmartKids Ghana's commitment to creating learning experiences that extend beyond traditional classroom subjects. Through partnerships with passionate volunteers and organizations like MentorArc, we continue to expose children to new ideas, broaden their perspectives, and nurture the intellectual curiosity needed to thrive.

We extend our sincere appreciation to Daisy Ryu and Nour Eissa for raising $600.00 and partnering with us to make this learning experience possible.

October Performance Review

Alumni Giving Circle: Math and Science Project

Through the generosity and support of the Alumni Giving Circle, previous student ambassadors came together and raised $2,005.00 to successfully deliver its Math and Science Project to 30 scholars at Wadie Adwumakase Primary School. The initiative was designed to make mathematics and science more engaging by giving students opportunities to explore concepts through practical, interactive learning experiences.

The project aimed to strengthen scholars' understanding of essential mathematical and scientific principles while encouraging experimentation, observation, measurement, and problem-solving. By connecting classroom concepts to practical applications, the initiative helped make learning more engaging and encouraged students to approach mathematics and science with curiosity and confidence.

The project also reflects the importance of providing children with the tools and learning resources needed to develop foundational STEM skills. SmartKids Ghana is grateful to the Alumni Giving Circle for investing in the intellectual development of these 30 scholars. Their support demonstrates how collective giving can create meaningful educational opportunities and help nurture the next generation of problem-solvers and innovators.

Dr. Eric's Saddle and Pedal for Education: Raising $695.00 for SmartKids Ghana

SmartKids Ghana extends its heartfelt appreciation to Dr. Eric for his Saddle and Pedal for Education fundraising initiative, which raised $695 in support of the organization's educational mission. Through this initiative, Dr. Eric demonstrated how personal commitment, community engagement, and a passion for education can come together to create meaningful change.

The funds raised will contribute to SmartKids Ghana's ongoing efforts to expand access to educational resources, digital learning opportunities, and skills development for children in underserved communities. Every contribution helps strengthen our ability to deliver programs that empower scholars, support teachers and volunteers, and create pathways to a brighter future.

Beyond the amount raised, this initiative serves as a powerful reminder that there are many ways to champion education. By using his passion for cycling to support a cause that matters, Dr. Eric helped bring greater attention to the importance of bridging the digital and educational divide.

We are sincerely grateful to Dr. Eric and everyone who contributed to the success of Saddle and Pedal for Education. Their generosity reinforces our belief that when individuals use their talents and passions to support a shared vision, meaningful impact becomes possible. Together, we are turning generosity into opportunity and helping more young minds access the education they deserve.

Welcoming Our New Zoom Teachers

In October, SmartKids Ghana continued to strengthen its volunteer network and expand opportunities for individuals to contribute to our educational mission. Three Zoom teachers were recruited during the month to support our teaching programs. Their involvement will help strengthen our capacity to deliver engaging lessons and provide scholars with access to quality educational opportunities, regardless of their location.

But they're doing even more. Each Zoom Teacher has also committed to raising $400 to support SmartKids Ghana's programs. We are thrilled to have them join the SmartKids Ghana family and cannot wait to see the impact they will make both inside and outside the virtual classroom.

Welcoming Our Ghanaian Student Ambassadors

We successfully recruited four Ghanaian Student Ambassadors who will contribute to our educational initiatives through teaching, student engagement, and program support. Their participation will be instrumental in connecting our programs with local communities and ensuring that scholars receive consistent support throughout their learning journeys.

We are glad to welcome them and look forward to seeing the impact they will make in classrooms, communities, and beyond.

STUDENT AMBASSADORS FOR THE MONTH

Our US Global Impact Ambassador of the Month:

SARAH LAI

SmartKids Ghana is proud to recognize Sarah Lai as our U.S. Global Impact Ambassador of the Month for her dedication and outstanding contribution to our Dzogborve Teaching Program in the Volta Region of Ghana.

As a Zoom teacher, Sarah played an important role in delivering virtual lessons to scholars throughout the six-week program. Her consistency, commitment, and willingness to share her knowledge helped create valuable learning opportunities for students, demonstrating how volunteers can make a meaningful difference even across geographical boundaries. Throughout the program, Sarah contributed a total of six hours of teaching, giving her time and expertise to support the educational development of the scholars. Her participation reflects the spirit of global collaboration that drives SmartKids Ghana's mission to bridge the digital and educational divide and ensure that children in underserved communities have access to quality learning opportunities.

We celebrate Sarah for showing up consistently, embracing the responsibility of teaching, and contributing to a program that empowered 30 scholars in Dzogborve. Her efforts remind us that meaningful impact is not defined by distance, but by the commitment to making education accessible to every child.

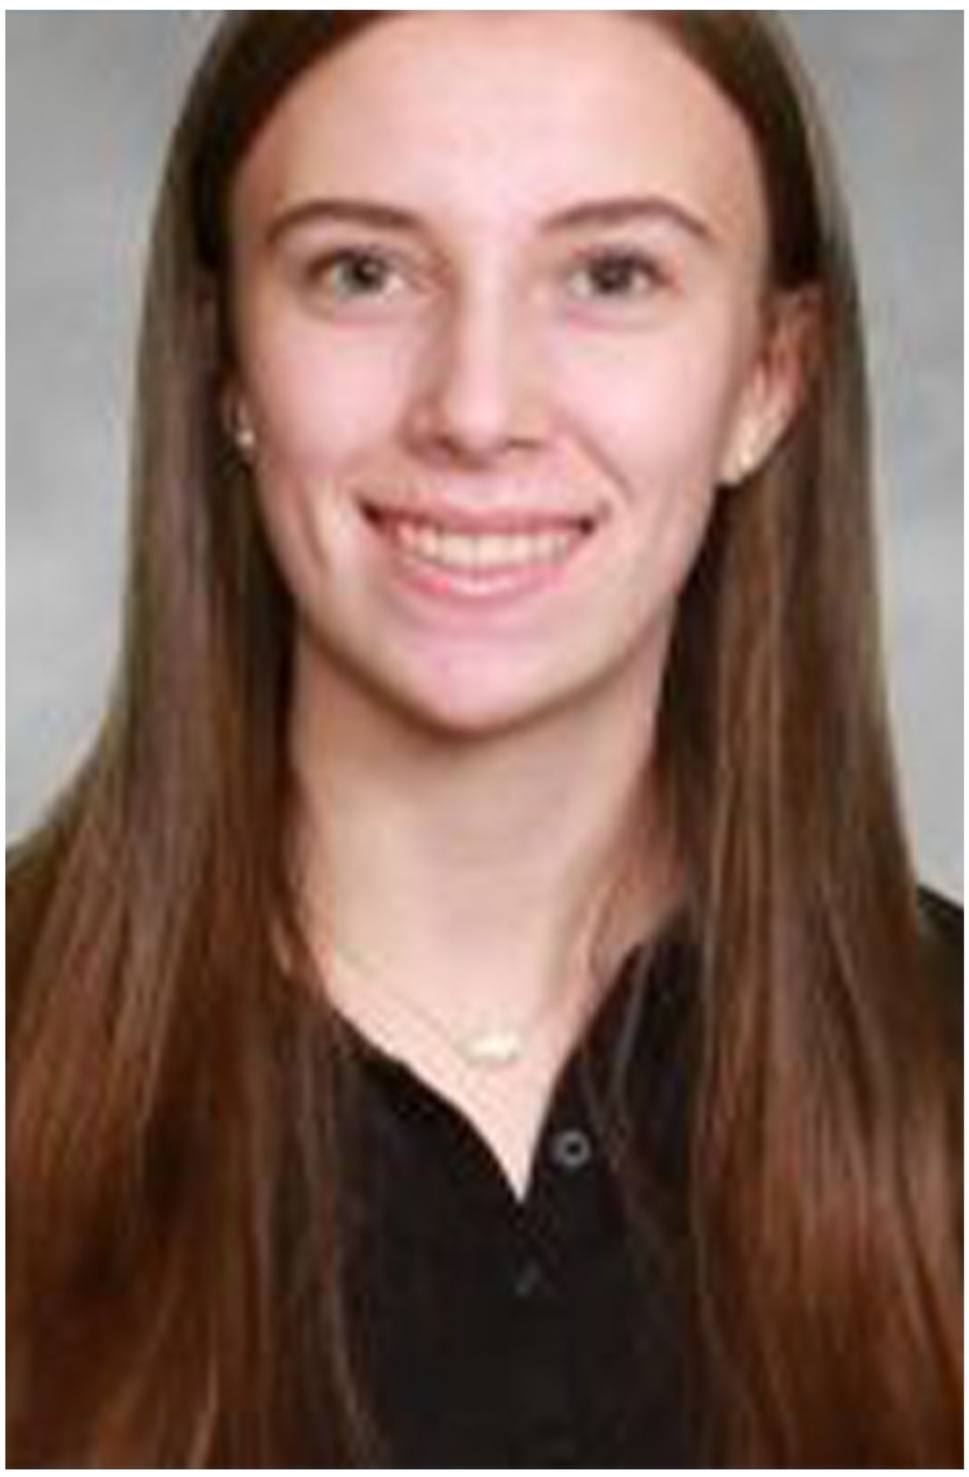

Congratulations, Sarah Lai, and thank you for being a valued part of the SmartKids Ghana community!

Appreciation for Our Zoom Coordinators

We extend our heartfelt appreciation to our Zoom Coordinators for their dedication and commitment throughout our teaching sessions. They have consistently held the fort online, ensuring that lessons run as smoothly as possible while coordinating teachers, supporting scholars, and addressing unexpected technical and logistical challenges along the way. Their patience, flexibility, and problem-solving efforts have played an important role in keeping our virtual classrooms active and engaging. We recognize and deeply value their contributions behind the scenes, which have helped make our teaching programs a success. Thank you for showing up, stepping in, and keeping the learning going!

LOOKING AHEAD: NOVEMBER AND DECEMBER

As we approach the final months of the year, SmartKids Ghana is transitioning from program implementation to a period of reflection, recruitment, and strategic planning. With all our teaching programs concluding in October, November and December will provide an important opportunity to assess our progress, strengthen our operational capacity, and prepare for an even more impactful year ahead.

During this period, we will focus on recruiting dedicated volunteers, Zoom teachers, Ghanaian Student Ambassadors, and other contributors who share our commitment to bridging the digital and educational divide. We will also work on developing program plans, refining our educational curricula, strengthening partnerships, and identifying opportunities to expand our reach to more scholars and underserved communities.

These final two months will allow us to evaluate the lessons learned from our programs throughout the year, document our impact, and identify areas for improvement. By investing time in preparation and building a stronger team, we aim to ensure that our upcoming programs are well-coordinated, adequately supported, and positioned for sustainable growth.

As we close out the year, our focus remains on building a stronger foundation for the future. November and December will not simply mark the end of our teaching calendar, but the beginning of preparations for a new year of learning, innovation, and greater impact.

We're inviting more supporters to join our monthly giving community. **Create a measurable impact** via:
